

Mobile Site Minimum Order: \$70.00

Edgeworks Safety Protocol Checklist:

We ask all customers that have scheduled a mobile service visit by Edgeworks to follow the protocols outlined below:

- Make sure you have a flat, level space to park the Edgeworks van.
- Designate one point of contact for the entire visit. We will not enter your home or business, but instead will rely on your contact to bring tools to/from the van.
- On the day of my visit, have your point of contact sanitize all of the knives in the following solution:
 - 5 Tbls bleach per gallon of water (or 4 tps bleach per quart of water)
 - Leave the knives in the solution to await Edgeworks arrival
- We will text you/your contact when we arrive on site.
- Have your point of contact wear and mask (we will also be wearing masks).
- Have your point of contact bring the knives (still in the sanitizing solution) out to the van. Leave them at the door.
- We will sharpen the knives and return them to sanitizing solution when finished. (Be sure to rinse the sanitizing solution off your knives once you receive them back).
- We will text your point of contact on completion and send you an invoice to pay online via credit card (further limiting contact).
